COI ACKNOWLEDGEMENT Research Conducted under COI or the Appearance of COI Conditions

A research conflict of interest or the appearance of a conflict of interest has been identified for the individual named below. The University takes very seriously its role in ensuring that its research and scholarship is conducted with the highest integrity and is protected from influences that could lead to bias, or the appearance of bias, in the collection or interpretation of data, or publication of research results. The conflict of interest, in this case, cannot be eliminated with the usual procedures. Therefore, a COI Management Plan (MP) was established and the Oversight Official listed below will review all administrative concerns and research involved with regard to the conflict of interest issues listed in the COI MP until the conflict has been resolved.

It should be understood that the COI MP implemented is unique to this case and does not imply that a similar plan will apply in future conflict of interest cases. The COI Committee decides each case on its own merits which include, among other things, considerations of the nature of the research, the potential risk to the University, and the benefits to public welfare.

If you have any questions or concerns regarding the potential conflict of interest or the COI MP, please contact the Oversight Official listed and/or the Conflict of Interest Office, COI@umd.edu.
